Mr. ABID is presently working in Rural Development Academy (RDA), Bogura as a Joint Director under Farm Technology, irrigation and Water Resources Management. He started his career in RDA as an Assistant Director from November 2004. Before starting his career in RDA, he has started his service as an Assistant Engineer in Barind Multipurpose Development Authority (BMDA) under the Ministry of Agriculture about two years (March 2003 to November 2004) and he served here mainly development of borehole and buried pipe irrigation. Presently, he conducts basic four mandates of RDA like training, research, action research and advisory services in the field of rural development. Additionally, he works in specialized Centre named Centre for Irrigation and Water Management (CIWM), which is one of the seven Centre's in RDA and he is dealing with RDA-developed irrigation & water management models such as low cost DTW, buried pipe irrigation system, iron & arsenic mitigation plant, community biogas plant, industrial water supply, multipurpose use of DTWs, urban and rural water supply etc. He has been received several international training on rural development issues from Egypt, India, China and Pakistan. He has a lot of experienced on formulation and implementation of GoB funded projects as a Project Director and Deputy Project Director. Till now, he has successfully completed 07 (seven) projects such as (i) Strengthening facilities of RDA (ii) Climate change on water, sanitation and hygiene (Climate Trust Funded) (iii) Renovation works of RDA's strengthening facilities (iv) Expansion of RDA school and college (v) Sheikh Rasel Rural Development Academy, Rangpur (vi) Sheikh Hasina Rural Development Academy, Jamalpur and (vii) Palli Janapad. He has keen interest in the field of irrigation & water management as well as global climate change to overall rural development and ensure food security for the 21st century of Bangladesh.
